

Get to know what WHY for photography!

Hi! the name is Oswaldo and just like a millennial on my age I'm building a small business to share one of the gifts that I was given so that I can share and help those who want their pictures be little more than just a simple image but rather a more memorable picture that can always be something to look back to. Why is it important? Well, Pictures have great meaning in someone's life no matter where or what you have been doing in that specific moment. So why not make it important by really let the image speak for itself. Right?

That's why throughout my years of experience, I was able to help my clients to achieve their goals and capture the event they would love to keep in their life.

That's what my main goal as a photographer is all about! everyone can take a picture but how well are they able to take a picture that is telling not just where the person is located or the outfit they're wearing but the story of what the image wants to represent.

Fun facts about your photographer:)

I enjoy taking pictures of my clients BUT not much of a fan is the one getting their picture taken

I'm a fan of long drives no matter the destination

Not a fan of pineapple on a pizza...sorry everyone

Coffee is my friend 24/7

I enjoy dancing, mostly Hip hop

Let's Link up!

My photography skill and specialties are only in portraits, weddings, and cars. I'm slowly going to expand my skills in the future with fashion and real estate (houses)and events.

Price!

The price will depend on the theme that you're looking for and the location where you would like to meet up, plus the amount of photos you would like to edit. You can contact me for more information.

FAQ/answers
